Computer control systems for industrial automation

Lecture 1

04.11.2014 – 14:00-15:30

Informačné centrum FRI

Ph.D. Eng. Roman Kwiecień

Kazimierz Pulaski University of Technology and Humanities in Radom (Poland)

SUBJECT OF THE LECTURE:

- Model of infrastructure information systems
- Standard IT technologies:
  - DDE
  - OLE
  - COM/DCOM
- OPC Foundation
- Classic OPC technology:
  - Specifications
  - Identification in the operating system
  - Interfaces
