Verification

To order products on this WebStore, you must be affiliated with an organization that is authorized to use this WebStore.

How would you like to register?

- ☒ **With an organization-issued email address (e.g. a ".edu" or ".ac.uk" address)**
- ☐ By activating an account that has already been created for you
- ☐ With a registration code
- ☐ By submitting proof of your academic affiliation (e.g. a student ID or report card) via upload or fax.

Please allow two business days for your proof to be verified after you submit it. Some orders may be placed on hold until this verification is complete.

Description

Are you eligible?

IBM Bluemix is the cloud platform that offers a choice of scalable and flexible resources in one consistent experience. Bringing together APIs and services, Bluemix offers a rich and continuously expanding ecosystem of services to accelerate the pace of innovation.

Accelerate Innovation

Different courses need different tools. Choose the runtimes or boilerplates that allows you to create cloud solutions based on packages of sample code and services, or start from scratch. Use the uniquely open Bluemix architecture to support the best choices for your projects today and support the changes for each new best choice over time. Your experience of developing, launching, and maintaining cloud-based applications remains the same.

Gain Deeper Insights

Extracting insight and value from data and effectively managing it is important to new application design and delivery. From Watson to Spark, Bluemix provides the tools to extract insight and value from big data in ways that were never previously possible.

- Cognitive Services: Bluemix provides access to Watson services for use via APIs in cloud-based applications.
- Data Analytics: With data being the new natural resources, learning how to collect, analyze, predict and act based on information is a pillar for any profession. Developers want to invent new digital experiences for customers. Data scientists search for new and unexpected trends. IT data architects make it all scale and integrate with the best technologies for the job. Built for all of these needs, the Data and Analytics services available on IBM Bluemix provide an ideal platform to learn a range of technologies including Cloudant, dashDB and Spark.
- Internet of Things: Experience a fully managed, cloud-hosted service designed to simplify and derive value from your IoT devices. Connect your device, send data to our cloud, set up and manage your devices, and use APIs to connect apps to your device data.
- Devops: Continuous delivery is now a best practice for software development in the rapidly changing marketplace. Development teams must experiment quickly, fail fast, and bring worthy innovations to market—scaling and iterating them. There is no better way than Bluemix to experience this new paradigm.

Open Source Skills

IBM Bluemix is based on an industry standard [Cloud Foundry certified platform](#). Built upon IBM's support for Open Governance and Open Architecture, Bluemix puts leadership in OpenStack, Cloud Foundry, Node, Docker and more into practice.

NOTE: Each user can only request one Bluemix promotion code. If you already have a cloud access promotion code in your shopping cart, you will not be able to add another. With Bluemix you have a single platform in the cloud that will enable you to develop your own solutions using a wide range of IBM services and APIs, including big data, analytics, Internet of Things (IoT), Watson, mobile, security and more.

IBM Bluemix Promo Code - 6 Month Trial - Cloud Access

Academic Initiative Program Agreement

You can also view this agreement in [Greek](#), [Indonesian](#), [Polish](#), and [Czech](#).

The purpose of this IBM Academic Initiative agreement ("Agreement") is to make available certain software, resources, cloud services for educational and non-commercial research only to qualifying students, employees or contractors with educational institutions, or learning providers. As an authorized representative, you accept the terms of this Agreement by completing the registration process at <http://ibm.biz/ibmonhub2>.

This Agreement and any IBM license agreements or any other agreements under which Eligible Resources are made available are the complete agreement between you and IBM regarding the use of those Eligible Resources. This Agreement replaces any prior oral or written communications between you and IBM regarding this offering. If there is a conflict between any of the terms of other applicable licenses and agreements and those of this Agreement, the terms of this Agreement prevail to the extent that the terms conflict.

1. Definitions

Institution: an accredited publicly- or privately-funded educational institution approved by IBM to participate in this offering. Qualifications for approval are listed at the following web site: <https://developer.ibm.com/academic/docs/usage-questions/>

Registered Educator: a member of an Institution's teaching or research staff who has registered, with the authorization of their Institution, to participate in this offering.

Registered Student: a student of an Institution who has the authorization of their Institution to participate in this offering.

Educational Materials: The term "Educational Materials" means educational material that IBM or a third party on behalf of IBM may make commercially available. Educational Materials may be tutorials, instructor guides, student guides, lab guides, lab exercises, slide decks, sample tests, syllabi, workbooks, charts, white papers, data sets and IBM Redbooks. Educational Materials may be delivered in the form of software or written material, computer-based training (CBT) or Web-based training (WBT) courses, Webcasts, or Adobe Acrobat ("PDF") or csv files or revisable formats.

IBM Bluemix Promo Code - 6 Month Trial - Cloud Access

Notes:

Thank you for requesting extended trial access to IBM Bluemix, a single platform in the cloud that will enable you to develop your own solutions using a wide range of IBM services and APIs, including big data, analytics, Internet of Things (IoT), Watson, mobile, security and more.. To take advantage of this special cloud offer*, redeem the unique promotion code provided during checkout:

1) [Register](#) for an IBM Bluemix trial account, if you haven't already. (Don't forget, to complete the registration process you must respond to the click/accept text or email from id@bluemix.net)

2) **Login** to your Bluemix dashboard. Click on **Account** in the upper right corner and then on **Account Type** in the left navigation.

3) Enter the promo code from checkout. Click apply.

After you successfully apply the code, refresh the page to see the extension reflected in the calendar icon.

Learn more about how to use [IBM Bluemix](#) in your course work by using the [on-line documentation](#) and [community resources](#). We hope you'll find value in using the many APIs and services available on IBM Bluemix as you complete your learning projects.

Sincerely,

IBM Academic Initiative
